DPSCS BDU UNIFORMS

Instructions for converting a
BDU long-sleeve shirt to a short-sleeve shirt

Step 1

Start with sleeve end unbuttoned.

Step 2

Fold end of sleeve up until hemmed edge touches bottom of armpit (sleeve will be inside-out).

Step 3

At the folded edge of sleeve, make 2 additional folds approximately 2" wide (may need to adjust for arm length).

Step 4

Grasp finished sleeve end and fold back over the double-fold, so that the face side of the sleeve and buttons show on the outside around the double-fold.

Step 5

Re-button tab to hold in place.
